2016 District Chapter
of the Year

We hope everyone had a blessed Easter. Mother nature gave us some much-needed rain, but I am sure we all made the best of it and had a great time with family/friends.

We had our Say goodbye to the snowbirds' picnic at W. Franklin Locks south at the end of April. It was the perfect day for a picnic, 29 members attended. Hamburgers and hot dogs were cooked, and everyone brought a special dish. Picnics are always fun. Didn't get to see any spectacular boats going through the lock, but we did see a gator.

May will bring on the vacation season for many of us and we hope everyone will have fun and stay safe during your adventures whether it is on bikes, on a cruise ship or whatever other way you may choose to vacation. Pat and I will be heading to New York on May 5 to see our kids and grandkids. We are looking forward to our granddaughter's college graduation on May 13. She will graduate magnum cum laude with her Bachelors' degree and a special award for Achievement above and beyond the business requirements for her degree. In July she will be receiving her Master's Degree in Accounting. She is one of very few students who was allowed her bachelor and master courses at the same time. Our youngest grandson's prom will be that same afternoon. Can't wait to see him in his Tux and his gal in her gown. We will also be attending our son-in-law's grandfather's 100th birthday. Yes, you read right 100 years young.

Starting in May our Tuesday, Saturday and Sunday rides will start at 8 am instead of 9 am to beat the heat and the rain, now that we are in the rainy season.

News on Eagle Wings Motorcycle Association. The Registration and Flyer for the Inaugural 2023 Eagle Wings Rendezvous Rally has been posted. It will be held August 31 through September 2, 2023, at the Knoxville, Tennessee Convention Center. You don't have to be a member to attend. Everyone is welcome. The cost for members is \$40.00. Non- members are \$50.00.

We want to say goodbye to our snowbirds and hope they have safe travels and a great summer and fall. We look forward to seeing everyone again in the winter months.

Remember to ride safely, beware of your riding conditions and have fun, fun, fun.

FLAT TIRE REPAIR

***Dominick & Diane
DeSiato***

**Florida District Safety/
Ride Coordinators**

Greetings to All,

Good riding season is once again upon us. That means more opportunities to ride and more opportunities to pick up a nail or screw in one of your motorcycle tires. Are you prepared for a roadside repair? There are three usual methods of repairing a tire due to a nail or screw. They are the Rope Type, Mushroom Type, or the Internal Plug.

The Rope Type method: after you hone out the diameter of the hole so it is big enough to insert the rope with sealant, you will then pull out the insert tool. There will be additional rope sticking out of the tire which you will cut off with a razor blade.

The Mushroom Type plug: has a large head which goes into the hole headfirst. After being pushed into the tire the large head prevents the plug from slipping back out.

The Internal Plug: is the best method to plug a tire. This requires the tire being removed from the rim and the plug being inserted from the inside. The plug has a large adhesive base which sticks to the inside of the tire and a stem which comes out through the hole you are repairing. This method is practical if the tire is fairly new. If the tire is worn you might as well replace the tire with a new one.

The newest intervention to the market is the Self-Tapping Screw Plug. It looks like a plastic wood screw with a Phillips head screw pattern on the end. The kit comes with several different size diameter screws. You just match the screw plug to the diameter of the nail or screw you removed from the tire. You then place a little adhesive on the screw plug and screw it into the tire.

One of the brands of the Self-Tapping Screw Plug Kit is "Norshire", should you like to take a look at it on the internet. I purchased one of these kits to keep in my motorcycle along with a Rope Type repair kit just in case. It looks like a good idea so I will give it a try the next time I get a flat.

Have some method of flat tire repair on your bike. That includes some method to inflate the tire once you plug it. Remember if you think you have a tire that is going flat as you are riding on the highway do not go for the brakes. Pull in the clutch and coast towards the shoulder of the roadway. Slow down using only the brake on the wheel that does not have the flat. We are here to assist you with your training needs.

Florida District Riding and First Aid/CPR classes are available upon request to maintain your Levels status.
